

## Steps to use the SurveyApp:

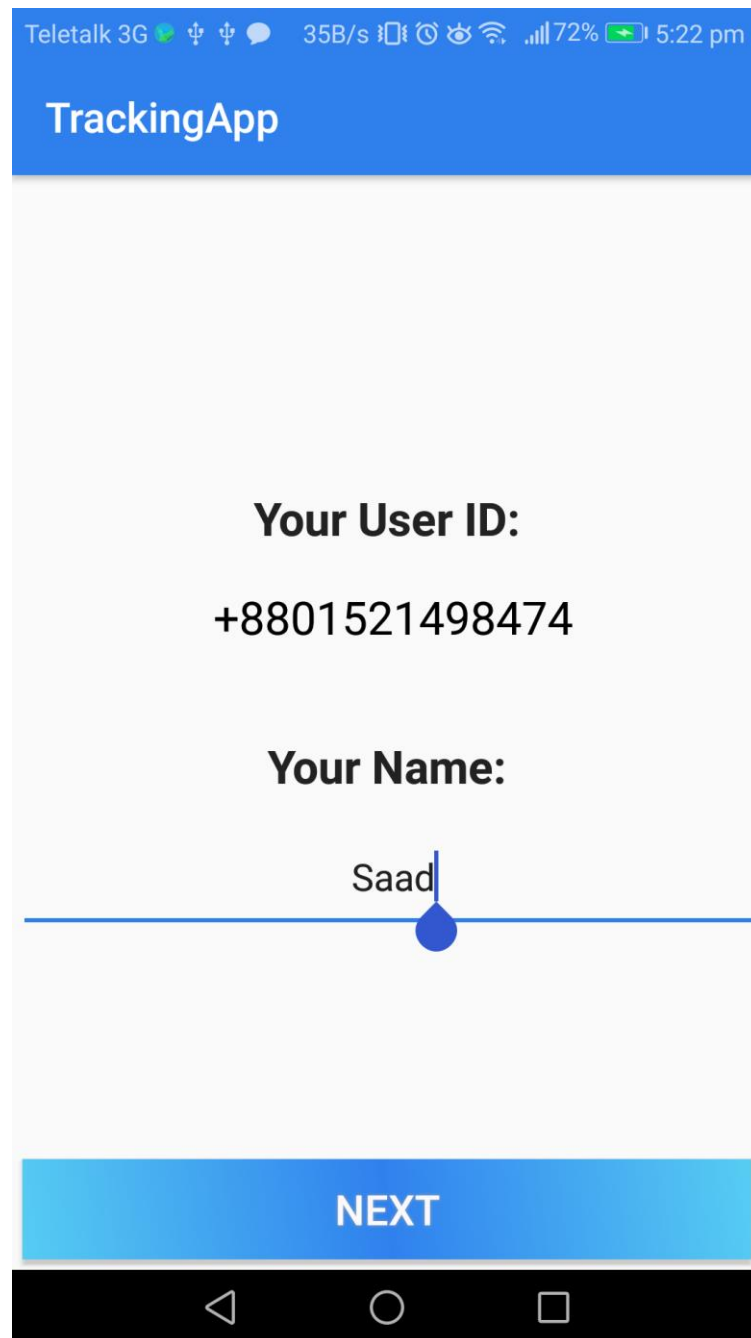

1. Install the app from the provided apk file
2. Turn on **WiFi** or **data connection**
3. Turn on the **GPS**.  
Go to Settings > GPS > Mode and check if “High Accuracy” is selected.  
(**N.B.** In most of the Samsung devices, it’s automatically pre-selected, see the screenshot below)

4. The user has to login first by verifying phone number

5. Input your name like this:

The screenshot shows a mobile application interface for 'TrackingApp'. At the top, a blue header bar contains the app name. Below this, the screen displays the 'Your User ID:' as '+8801521498474'. Underneath, it prompts for 'Your Name:' with a text input field containing 'Saad'. A blue cursor is positioned at the end of the text. At the bottom, there is a large blue button labeled 'NEXT'. The status bar at the very top shows network, speed, and battery information.
